Intro To Musical Theatre **&** **Production**

Welcome to Intro to Musical Theatre & Production. Together, we will dive into the world of musical theatre. Over the course of the semester, we will look at many aspects of the theatre. Whether you are here for the credit, participate in the arts, appreciate them, or want to get involved with them, this course is for you! We will have a ton of fun, learning and applying everything we learn about the theatre.

Please note that we will be using a Google Classroom throughout the Semester to make the best use of our time. Also, there will be time required outside of class and a chance for extra credit by working for events. Not only will you have fun learning, but you will get to put your knowledge to work as we assist our school's Drama Club with their productions.

Good luck and I look forward to working with you this semester! At any point feel free to contact me by phone, or at dferreira@millburyschools.org. More info for our class can be found at <http://www.millburyhsmusic.com/general-music/intro-to-theatre/>
