Keyboard Lab

Welcome to Keyboard Lab. The purpose of this class is to gain knowledge of music through using a keyboard. Although it is a mainly performance oriented class, there will be other work to help you dive deeper into the music you are learning.

This class is designed as a self-directed course as there are many levels of music literacy and piano proficiency in the class. Grading is quite simple and there should be no surprises for you. Please note that we will be using a Google Classroom throughout the Semester to make the best use of our time.

Good luck and I look forward to working with you this semester! At any point feel free to contact me by phone, or at dferreira@millburyschools.org. More info for our class can be found at <http://millburyhsmusic.com/general-music/keyboard-lab/>

Grading Breakdown:

1. Performance 60%

-36 playing quizzes in the book

-Daily work

2. Google Classroom 30%

Discussion Questions

Fun Facts
